

Making an Impact

N A T I O N A L
NONPROFIT
D A Y

Every year on August 17th, the Emergency Aid Coalition and other impactful organizations across America celebrate **National Nonprofit Day!** This day raises public awareness of the nonprofit sector, encourages people to support their favorite causes, and acknowledges the hard work and dedication of nonprofit professionals and volunteers.

On August 17, 1894, the Tariff Act was signed into law, imposing the first federal income tax on corporations, which included important exemptions for nonprofit and charitable institutions. With just a few modifications, nonprofit exemptions remain an important part of the law, providing significant benefits for communities and the economy.

In the spirit of National Nonprofit Day, we sincerely thank every single one of our incredible volunteers, Board members, donors, community partners and staff. They are the ones tirelessly promoting the EAC's mission and doing the work to make a difference in the lives of our Houston neighbors in need. **We thank you for your ongoing support!**

Volunteers

The EAC heartily thanks all of our volunteers for their generous contributions of time, energy, and heart. From interviewing clients to making sandwiches, from stocking groceries to sorting clothing, their hard work and kindness changes lives and lifts up our whole community every single day. To join this amazing team of volunteers contact Marian Bryant at mbryant@eachouston.org.

Board Members

The EAC Board of Directors is comprised of 15 caring individuals, representing our member congregations or the community at large. Board members meet regularly and are responsible for the overall governance of the EAC. However, many of our Board members are hands on, working directly with EAC clients in a variety of ways. We thank you for your service!

Community Partners

The Emergency Aid Coalition partners with other local charities, businesses and government agencies to expand our reach in the community and accelerate our impact. Our network is large and diverse, just like the community we serve! We are grateful for the enhanced opportunities these partnerships provide, allowing the EAC to grow and adapt to the needs of our neighbors.

Staff

The individuals who work at the Emergency Aid Coalition come from a variety of backgrounds, much like our clients. Each staff member is dedicated to making the EAC safe and successful, emphasizing compassion and promoting self-sufficiency. They keep the vision of the EAC in mind - that everyone in our community has the food, clothing and other basic needs to provide for themselves and their families. Thank you for working hard to help others every single day!
